

# NATIONAL AIR FILTER

*Utilizing Science and Economics to Engineer the Highest Quality Clean Air*

## **FOREMARKET EQUIPMENT SALES**

We are seeking a well-organized individual with excellent written, verbal, and computer communications skills to join our sales force as an Outside Sales Engineer in the HVAC new construction/plan and specification market in Greater Philadelphia/Delaware Valley territory.

The successful candidate will work developing specifications with the professional engineering community, bid, close, and service General, Mechanical, and Sheet Metal Contractors as well as end-users in the territory. Ideally, the candidate will establish a working home office as well as maintain office space in our New Jersey facility.

Requirements are a Bachelor's degree, preferably including technical coursework, a familiarity with the plan and specification sales process, and a desire to achieve sales success in the disciplines of HVAC, Process, or Mechanical Equipment. While an engineering degree is not a requirement, candidates with up to (3) years of successful sales experience of mechanical equipment in the field will be strongly considered.

Your efforts will be compensated with a Base Salary, commission/bonus plan, reimbursed expenses, medical benefits, 401k, and retirement plan.
